“The highest education is that which does not merely give us information but makes our life in harmony with all existence.” Rabindranath Tagore

Lakshya Jeevan Jagriti endeavors to impart an education that aims towards the all-round development of every human being. We are aware of the many challenges they face today and therefore we try to impart a ‘value based’ education that will help our beneficiaries to face life with confidence.

We are glad that we are moving in the right direction and getting the support from our well wishers.

We will do our best to provide the opportunities to the people coming from disadvantage communities and will continue to empower them with education and skills to give them dignified lives.

We are grateful to our Mentors, Staff, Team, Parents and Well-wishers who have always supported us in our service of Education. It has been a joy to see our students doing well in lives as well as in their careers.
### Vision
We envision to mainstream women and youth from underprivileged background with the help of IT and make them financially independent.

### Challenges
Most of the women in lower income families are illiterate or semi literate. The prevailing gender roles and discriminating women may have a crippling impact. It identifies female labour force participation in the market at 31.2 percent and more than 50 million young women in India neither study nor work.

### Solution
We started programs for women to provide basic education opportunity to upgrade their current knowledge base by training them in IT skills.
Eklavya- An after school support program for school kids.

Aao Sath Maa- A program to educate and train women to help them become financially independent.

I CAN- Vocational Skills Program for Youth.

WE Connect- A mentoring program for Women Entrepreneurs.
PROGRESS BY THE NUMBERS

3385 People mobilized

1627 Participated in Leadership Workshops

1500 School students benefited through after school program

565 Women participated in literacy and IT training program

205 Youth trained in vocational skills

380 Students Placed

50% increment from last year
After my marriage, there were financial issues at my house. I wanted to contribute but due to lack of confidence and no education I couldn't think of going anywhere. I joined the program Aao Sath Maa and it provided me training to read and write. That's how I gained my confidence. Now, I've started working in a Salon and can handle customers with ease.

Mrs. REKHA

"I came to Delhi a year ago from a small village in Bihar. I've never been to any school before. When I learned about the ASMA program I immediately enrolled in it and just after 6 months I was able to read and write. I also learned basic computer skills to teach my daughters."

Mrs. MALKA
“I had to drop my schooling due to financial condition of my family. I had no hope. I joined lakshya. I was a slow learner though but I am very thankful that my mentors never gave up on me & after completing the course I got selected for a calling job. Now, I am the biggest support of my family.”  

Sheetal

“I always wanted to do something and from this program I found my path. I have learned computers and English which landed me a job as caller in an institute. My husband is very much proud of myself.”

Mrs Jaya Maurya
